SUMMER BEAUTY HINT

Hair is by far the most conspicuous thing about us and is probably the most easily damaged by bad or careless treatment. If we are very careful in hair washing, we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair, that dissolves and entirely removes all dandruff, excess oil and dirt, can easily be used at trifling expense by simply dissolving a teaspoonful of canthox (which you can get at any drugstore), in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. This chemically dissolves all impurities and creates a soothing, cooling lather. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on the glossy richness of natural color, also a fluffiness which makes it seem much heavier than it is. After canthox shampoo, arranging the hair is a pleasure.—Adv.

CONVENTION DIED CHICAGO. Windy City Physicians Have Run Out of Boozie Blanks.

Chicago, June 24.—Less than half of 1 per cent of Chicago's residents are entitled to distribute whisky. Today, 98 per cent of that number were without prescription blanks. The prohibition enforcement office here, obstinately refusing to issue more books to Chicago's 3,000 physicians before August 16, heard many pleas. The Republican convention caused a run on prescriptions, one physician said. "You're depriving me of my means of living," one physician wrote.

The Gadabout

"Love's a funny thing," decides an old maid. "For instance, This time last year I vowed eternal love for one girl I knew. She'd broken his heart. He said, 'Now some time ago he married. Another girl who This time last year Cared a lot about other men. Because she had never known HIM. Ain't it funny? But it's true.'"

Prepare for a surprise. It's possible to buy a pair of summer pumps, one-eyelid ties, or oxfords for dress wear that might be described as "slick," a newly adopted word for good looking, stunning, everything, for only SEVEN dollars. Most of them have high Louis heels. They're on sale right now at Payne's shoe store. From \$10 to \$13.50 values, now \$7.00.

College girls will choose heavy welted dark tan oxfords for wear with fancy wool hose this fall, shoe dealers prophesy. The oxfords will have a rounder toe than last year, with no extreme sharp point.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blotches disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.—Advertisement.

Makes Wrinkles Go "As If By Magic"

Want to banish every wrinkle—from face, neck, hands—easily, quickly, completely? Try the famous axatite formula. Nothing else so nearly meets every requirement. Why? Because it is correct in principle and really, truly assists Nature. Possesses reasonable and strongest tonic properties. It both tightens the skin—thus naturally smoothing out the lines—and improves capillary circulation and nerve tone—tending to strengthen loose tissue and bring about a healthy condition. Yet, powerful as the axatite lotion is, it won't harm your skin in the least. And it's so easy to get the simple ingredients at your drug-gist's, and so easy to mix them. Just dissolve one ounce of pure powdered axatite in one-half pint of water, wash—that's all. Bathe your face in this—immediately every wrinkle and crease are affected, even the deepest. You are perfectly astonished, and delighted, with the result. You look like you've lost years from your age.—Advertisement.

"We-Need-the-Money" Sale

The headline tells the story in a nutshell—we actually do need the money, must have it in the shortest possible time, else we would never dispense with all profits and even actually sacrifice a goodly percentage of first cost, as we are doing in this sale.

The plain, unvarnished truth is that we must have cash immediately—since finances have tightened there's only one way we know of to get cash—and that is to sacrifice what we have to sell for what it will bring on the open market.

Look over our offerings and you'll admit that these are really "forced sale" prices.
